Program

The Minimum Data Set Version 3.0 (MDS 3.0) is scheduled for implementation by CMS for certified nursing facilities across the nation on October 1, 2010. So now is the time to focus on the item-by-item coding, as well as how do you get prepared for the tremendous changes that will take effect? What should the action plan be? The new MDS 3.0 is four times the size of MDS 2.0 and there are some significant differences. Facilities will need to train their entire disciplinary team to be prepared. As always, the MDS drives all we do in long-term care — reimbursement, survey outcomes, and quality measures available to the public. What are the critical steps the interdisciplinary team needs to take now? We'll discuss how you can effectively prepare for the transition to this new assessment tool.

Speaker

Jane Belt, MS, RN, RAC-MT
Consulting Manager—PLANTE & MORAN

Jane is the manager of the Plante & Moran Clinical Group and has been involved with the long-term care industry for over 35 years serving as a Director of Nursing and a nurse consultant. She has a Master's in Nursing and is a Resident Assessment Coordinator Certified and a Master Teacher through the American Association of Nurse Assessment Coordinators. The nurse clinicians of Plante & Moran specialize in long-term care consulting, certification compliance, reimbursement; education, quality assurance and other long-term care services.
